

Indications for a correct filling in of the form

EU-citizens will mark with „X” the options for „state budgeted places” and/or „tuition places”. Foreign citizens (non-EU citizens) will mark only „tuition places”. The candidates who mark only „state budgeted places” will participate in selection and will be ranked only for those places. They cannot request subsequent enrolment on tuition places after the admission final ranking.

It is mandatory to mark with „X” the selected program and to establish the order of the option (with **1** and **2**, if the candidate want to apply for both programs; e.g. 1 for Teaching in French and 2 for teaching in English). The number will indicate the order of preference. Regardless the position on the list of admitted candidates, EU-citizen candidates can be admitted on state budgeted places in one program, which be selected according the candidate’s preference. The candidate will be ranked in tuition places for the second option.

Two fees for evaluation of candidate’s file will be paid (2x50 Euro) if the candidate will apply for both teaching in English and French programs.
