

PROGRAMME
Student Scientific Symposium 2026
“Students Perspectives in Veterinary Science”- 10th edition
Faculty of Veterinary Medicine Bucharest

Tuesday, 28th of April, 2026

08:00 – 09:00 Registration, Riegler Amphitheatre

09:00 – 09:30 Opening Ceremony, Riegler Amphitheatre

Guests from the university

Assoc. Professor Iuliana Ionașcu, Dean

09.45 - 14.00 Oral presentations, parallel sessions

Section I: Preclinical Sciences (8 sessions)

Stamatin Amphitheatre, Building 2, First Floor (2 sessions)

Locusteanu Amphitheatre, Building 2, First Floor (2 sessions)

Athanasiu Amphitheatre, Building 2, Ground Floor 2 sessions)

Thesis Room, Library, Room 24, Building 2, First Floor (one session)

Section II: Clinical Sciences (12 sessions)

Internal Diseases Room 1 - Building 14 - Clinics, Ground Floor (2 sessions)

Miclăuș - Building 14 - Clinics, Ground Floor (2 sessions)

Therapeutics Room 79 - Building 14 - Clinics, First Floor (2 sessions)

Radiology Room 8 - Building 14 - Clinics, Ground Floor (2 sessions)

Toxicology Room 94 - Building 14 - Clinics, First Floor (2 sessions)

Room 111 - Building 14 - Clinics, First Floor (2 sessions)

Section III: Animal Productions and Public Health & Food Quality (3 sessions)

Genetics Room 65 - Building 17, First floor (2 sessions)

Food Quality&Control Room 66 - Building 17, Second floor (one session)

14.00-15.30 Closing Ceremony, Riegler Amphitheatre

DETAILED PROGRAMME

SECTION I		
Veterinary Medicine – Preclinical Sciences		
(Session 1)		
TIME: 9:45 – 11:15		
Stamatin Amphitheatre, Building 2, First Floor		
Moderators: 1. Professor PhD Iuliana Codreanu 2. Professor PhD Emilia Ciobotaru-Pîrvu Technical assistance: student Chirsanov Iulia-Viorica		
Time	Authors	Paper Title
9:45	Albescu Alin-Constantin, Colgiu Lavinia Nicoleta	Beyond The Microscope
9:55	Antohei Daria-Gabriela, Mielu Raluca-Andreea, Popescu Elena, Șuteu Maura, Tulei Maria-Teodora	A Short Comparative Study Regarding Sedimented Fungi on Vegetal Nutriments and Sabouraud Dextrose Agar
10:05	Alexe Cătălina	Biochemical Analysis of Proteins in Colostrum of Small Ruminant
10:15	Anca Diana	Hematological Profile as an Indicator of Physical Performance in Hunting Dogs
10:25	Anghel Stefania- Emilia	Radiological Diagnosis of Osteoarticular Disorders in Birds
10:35	Antone Maria	Evaluation of Macroscopic findings and Etiopathogenic mechanisms involved in the mortality of the Northern White-Breasted Hedgehog (<i>Erinaceus Roumanicus</i>)
10:45	Blaga Iris- Stefania	Mechanisms And Pathophysiological Aspects of Lung Cancer in Canines
10:55	Bolboceanu Iulia-Andreea	Methods for the Quantitative Determination of Salivary Lysozyme in Dogs
11:05	Bucur Ana-Maria-Izabela	Correlations Between Endoscopic Findings and Histopathological Changes in Nasal Cavity Tumors in Dogs
11.15 - 11.45		Break between the sessions

DETAILED PROGRAMME

SECTION I		
Veterinary Medicine – Preclinical Sciences		
(Session 2)		
TIME: 11:45 – 13:15		
Stamatin Amphitheatre, Building 2, First Floor		
Moderators: 1. Professor PhD Iuliana Codreanu 2. Professor PhD Emilia Ciobotaru-Pîrvu Technical assistance: student Chirsanov Iulia-Viorica		
Time	Authors	Paper Title
11:45	Burlacu Sabina Băbuș Andreea Luciana	Differential biological characteristics of <i>Listeria innocua</i> , <i>Lactobacillus paracasei</i> , and <i>Enterococcus faecium</i>
11:55	Chiurtu Cezara Gabriela Băisan Cristiana Daniela	Behavioral dynamics of <i>Nutria</i> in correlation to the Ontogenetic stages, under controlled growth conditions
12:05	Chiriac Ana-Claudia	Comparative Study regarding cytological versus histological grading of cutaneous mast cell tumors in dogs
12:15	Chirsanov Iulia-Viorica	Fowl Adenovirus Infection: lesions and diagnosis in broilers
12:25	Ciobanu Gabriela Ramona	Toxoplasmosis Study – Comparative analysis between Animals and Human
12:35	Constantinescu Maria-Theodora	Morphological and Pathophysiological aspects of Mammary Carcinomas in Dogs and Cats
12:45	Dinică Maria	Bone Marrow examination in Foals with perinatal and neonatal pathologies
12:55	Dinu Laurentiu	Study of Tick infestation in the Romanița plain
13:05	Dragomirescu Radu-Ștefan	Molecular detection of Coronaviridae Family by RT-QPCR in Bats from the Wildlife Rescue and Rehabilitation Center
13:15 - 13:45		Conclusions; Q&A

DETAILED PROGRAMME

SECTION I Veterinary Medicine – Preclinical Sciences (Session 1) TIME: 9:45 – 11:15		
Locusteanu Amphitheatre, Building 2, First Floor		
Moderators: 1. Professor PhD Raita Ștefania 2. Associate Professor PhD Petronela Roșu Technical assistance: student Ioja Ana-Cristina		
Time	Authors	Paper Title
9:45	Duca Ovidiu	Correlations Between Body Weight and Vital Parameters in Dogs
9:55	Dudă Sorana-Luiza	Morphopathological Study of Primary and Secondary Renal Tumoral Lesions in Dogs
10:05	Enache Anca	Assessment of Pathophysiological Mechanisms and Blood Pressure Variability in Dogs with Myxomatous Mitral Valve Disease
10:15	Foca Monica Petronela	Study on the Incidence and Morphology of Lung Lesions in Dogs
10:25	Georgescu Ruxandra-Elena, Stoicescu Bianca-Ioana, Simion Denis-Gabriel:	AI-Vet Between Science and Challenges
10:35	Gheorghe Dimitrie Ciprian	Non-Invasive Monitoring of Essential and Toxic Elements in Cage Birds
10:45	Guță Ana Maria	Possible natural alternative for Eosin in Histology stains
10:55	Hurducaș Ekaterina Ioja Ana-Cristina	Cytopathological versus Histopathological evaluation of mammary gland tumors in dogs
11:05	Ion Cătălina Alexandra	Metabolic Disorders in Babesia Infestations in Canines
11:15- 11:45		Break between the sessions

DETAILED PROGRAMME

SECTION I Veterinary Medicine – Preclinical Sciences (Session 2) TIME: 11:45 – 13:15		
Locusteanu Amphitheatre, Building 2, First Floor		
Moderators: 1. Professor PhD Raita Ștefania 2. Associate Professor PhD Petronela Roșu Technical assistance: student Ioja Ana-Cristina		
Time	Authors	Paper Title
11:45	Ionescu Miruna-Maria	Pathophysiology of Burn Injuries
11:55	Ionescu Melissa-Georgiana	A comparative study regarding the Antibiotic Resistance Profile of Pathogenic and Non-Pathogenic <i>Listeria</i> Strains
12:05	Le Borgne Anna	Study on Acute Pancreatitis and Type 1 Diabetes Mellitus in domestic cats
12:15	Lincu Ana-Maria	Antibiogram-Guided Antibiotic Selection in the Management of Canine Otitis
12:25	Liță-Doicescu Maria Alexandra	The role of Glutathione in animal health and disease
12:35	Manea Maria Georgiana	Semiological aspects of the Skin, Mucous membranes and Skin appendages in Pets
12:45	Manole Mara Alexandra	Biochemical Screening as a Tool for Monitoring Age-Related Variations in Clinically Healthy Dogs
12:55	Marcu Miruna Mihaela	Equine Embryogenesis and Prenatal development: Cellular and Morphogenetic perspectives
13:05	Militaru George Alexandru	Cultural and Antigenic evaluation on ten strains of presumed <i>Salmonella</i>
13:15- 13:45		Conclusions; Q&A

DETAILED PROGRAMME

SECTION I – Veterinary Medicine – Preclinical Sciences (Session 1) TIME: 9:45 – 11:15		
Athanasiu Amphitheatre, Building 2, Ground Floor		
Moderators: <ol style="list-style-type: none"> 1. Professor PhD Gabriel Cotor 2. Associate Professor PhD Gabriel Gâjâilă Technical assistance: student Olărașu Andreea- Venera		
Time	Authors	Paper Title
9:45	Minca Andreea Sabina Olărașu Andreea- Venera	Study on the Antibiosis induced by <i>Streptomyces</i> against certain pathogenic bacteria
9:55	Negrilă Larisa-Florina	Short Ulna Syndrome (Forelimb Deformity due to Shortened Ulna) in dogs
10:05	Nica Cosmin-Daniel	Studies on physiological variations of renal parameters in feline patients according to age:
10:15	Nițulescu Georgiana	Study on the evaluation of weaning impact on hematological parameters in calves
10:25	Orac Ștefan	Anatomical particularities regarding the neurocranium of the Black Sea Porpoise (<i>Phocoena phocoena relicta</i>)
10:35	Pană Cristina Tatiana	Anatomopathological Study of Liver Lesions of Tumoral Nature in Dogs and Cats
10:45	Panait-Militaru Sabina-Elena	From Marine Biology to Veterinary Prevention: The Regulatory Potential of <i>Ascophyllum Nodosum</i>
10:55	Petre Delia Anamaria	Effects of Kombucha SCOBY on selected aspects of feline metabolism
11:05	Pintilie Ilinca Natalia	Musculoskeletal injuries in sport horses
11:15- 11:45		Break between the sessions

DETAILED PROGRAMME

SECTION I – Veterinary Medicine – Preclinical Sciences (Session 2) TIME: 11:45 – 13:15		
Athanasiu Amphitheatre, Building 2, Ground Floor		
Moderators: 1. Professor PhD Gabriel Cotor 2. Associate Professor PhD Gabriel Gâjâilă Technical assistance: student Olărașu Andreea- Venera		
Time	Authors	Paper Title
11:45	Pop Raluca Ioana	Oral pathologies in 865 dogs and cats - a retrospective study
11:55	Popa Andra Raluca	Information Revealed by Direct Microscopic Examination of Pathological Products in Skin Infections
12:05	Preda Luca-Mihail	The Etiopathogenesis of Jaundice Syndrome in Canine Babesiosis and Liver Diseases
12:15	Predoiu Maria Teodora	The Vomeronasal Organ
12:25	Raban Robert	Particularities of the thoracic appendicular skeleton in the otter (<i>Lutra lutra</i>)
12:35	Rădoi Ana-Maria	Pathological and clinical features of osteosarcoma in dogs
12:45	Rotaru Maria-Cristina	Polycephaly in Different Species
12:55	Stan Alessia	Histological aspects of the oral cavity in the Komodo Dragon (<i>Varanus komodoensis</i>) correlated with predation and host defence
13:05	Stanciu Alexandra Luisa	Age-Related Physiological Changes in Key Hematological and Cardiac Parameters in Cats
13:15- 13:45		Conclusions; Q&A

DETAILED PROGRAMME

SECTION I Veterinary Medicine – Preclinical Sciences (Session 1) TIME: 9:45 – 11:15		
Thesis Room, Library, Room 24, Building 2, First Floor		
Moderators: 1. Associate Professor PhD Cristian Belu 2. Assistant Prof Adrian Răduță 3. Lecturer PhD Letiția Purdoi Technical assistance: student Zamfira- Nicola Maria- Magdalena		
Time	Authors	Paper Title
9:45	Stancu Florina Bianca	Morphological Study of the Appendicular Skeleton of the Chinchilla
9:55	State Yasmina	Cytological evaluation in ear diseases in dogs and cats
10:05	Stoica Alexandra-Andreea	Morphological Study of Anatomical Structures in the Feline Orbital Region
10:15	Sălăi Anaïs- Andreea	Study on the tolerance of <i>Staphylococcus xylosus</i> to increased NaCl concentrations
10:25	Șurlea Maria-Cristina	Portosystemic Shunt in domestic carnivores
10:35	Țăroiu Mihai- Robert	Anatomical particularities of the Red Deer skull (<i>Cervus elaphus</i>)
10:45	Van Lysebetten Emma	Anatomopathological lesions associated with mycotoxin intoxication in poultry
10:55	Vlad Eliza	Identification of Nocardia Strains Based on Drug Susceptibility Patterns
11:05	Vrettou Alexandra	Comparative analysis of essential and toxic minerals in the hair of cats from Athens based on habitat
11:15	Zamfira-Nicola Maria-Magdalena	Retrospective study of renal lesions in dogs and cats recorded in the Pathology Laboratory
11:25	Zbughin Diana - Monica	Correlations regarding Paraclinical and Anatomopathological changes associated with splenic pathology in dogs
11:35- 11:50		Conclusions; Q&A

DETAILED PROGRAMME

<p style="text-align: center;">SECTION II Veterinary Medicine – Clinical Sciences (Session 1) TIME: 9:45 – 11:25</p>		
<p style="text-align: center;">Internal Diseases - Room 1 - Building 14 – Clinics, Ground Floor</p>		
<p>Moderators:</p> <ol style="list-style-type: none"> 1. Professor PhD Mario Codreanu 2. Associate Prof Iuliana Ionașcu <p>Technical assistance: student Ardelean Maria Denise</p>		
Time	Authors	Paper Title
9:45	Abaza Maria	Comparative analysis of the therapeutic response to furosemide in different forms of pulmonary edema in cats
9:55	Achim Adriana-Denisa	Implementation of monoclonal antibody (<i>Librela</i>) in the clinical evolution of osteoarthritis in dogs:
10:05	Alexandru Elena-Mirabela	Anticoagulant rodenticide intoxication in cats - a Case Study
10:15	Alexe Dan Andrei	The relevance of the ultrasound examination in feline polycystic kidney disease
10:25	Andrei Cosmin-Ionut	Therapeutic Management of Erysipelas in Households
10:35	Andrei Ioana	Surgical management protocol for spinal cord compression syndromes in dogs
10:45	Antip Karina Andreea	Research on emergency management of hyperkalemia in anuric canine patients
10:55	Apetrei Ioana-Andrada	Radiographic evaluation of nasal cavity and paranasal sinus pathologies in cats
11:05	Ardelean Maria Denise	Clinical and ultrasonographic diagnosis of immune-mediated chronic enteropathies in dogs
11:15	Răduț Larisa Mihaela	Diagnosis and Therapeutic approach in Canine Diabetes Mellitus
11:15- 11:45		Break between the sessions

DETAILED PROGRAMME

<p style="text-align: center;">SECTION II Veterinary Medicine – Clinical Sciences (Session 2) TIME: 11:45 – 13:45</p>		
<p style="text-align: center;">Internal Diseases - Room 1 - Building 14 – Clinics, Ground Floor</p>		
<p>Moderators:</p> <ol style="list-style-type: none"> 1. Professor PhD Mario Codreanu 2. Associate Prof Iuliana Ionașcu <p>Technical assistance: student Ardelean Maria Denise</p>		
Time	Authors	Paper Title
11:45	Bălan Andrada Georgiana	Aspects of squamous cell carcinoma in cats, diagnostic protocol and therapeutic evaluation
11:55	Rîmniceanu Cătălina Diana	Evaluation of aflatoxin levels in poultry feed
12:05	Bătrâna Caius Ioan	Study on diagnosis, clinical and therapeutic aspects of canine heartworm disease
12:15	Bedregiu Alexandra - Gabriela	Fetal eye ultrasound as a marker for estimating the time of parturition in mares
12:25	Danciu Izabela-Maria	Clinical and Morphopathological Aspects of Cystic Endometrial Hyperplasia Associated with Pyometra in Carnivores
12:35	Ristea Radu Mihai	Research Regarding the Evaluation of Nasogastric Feeding Tube Utilization in Cats
12:45	Brușten Ruxandra -Doina	Clinical and Imaging Features of Canine Brain Tumors
12:55	Bucaciuc-Mracica Francesca	Ultrasonographic evaluation of the placenta in mares during the 10th and 11th months of gestation
13:05	Călin Nicoleta -Ancuța	Incidenta, terapie și diagnostic în sindromul prostatic
13:15	Calineață Ovidiu-Andrei	Researches regarding the ultrasound diagnosis and emergency management of pleural effusions in cats
13:25	Selavărdeanu Alexandra Alina	Comparative analysis of dystocia in Merino and Île-de-France sheep based on maternal and fetal conformation
13:35- 13:45		Conclusions; Q&A

DETAILED PROGRAMME

<p style="text-align: center;">SECTION II Veterinary Medicine – Clinical Sciences (Session 1) TIME: 9:45 – 11:25</p>		
<p style="text-align: center;">Miclăuș - Building 14 – Clinics, Ground Floor</p>		
<p>Moderators:</p> <ol style="list-style-type: none"> 1. Professor PhD Laurențiu Tudor 2. Associate Prof Poliana Tudor <p>Technical assistance: student Bitire Ana-Patricia</p>		
Time	Authors	Paper Title
9:45	Cheroiu Gabriela	Assessment of heavy metal contamination in urban and rural environments using canine hair as indicator
9:55	Chiper Daria	The dynamics of mastitis evolution in domestic ruminants raised in traditional farming systems in Teleorman County
10:05	Chiran Alin-Nicolae	Beyond Minamata: mercury contamination in modern pet nutrition
10:15	Chiriță Teodora Alexandra	Tumoral processes identified in pet rodents
10:25	Chirulescu-Marcu Teea-Gabriela	Imaging evaluation of prostatic pathology in canines
10:35	Ciocan Eduard-Andrei	A new approach to the treatment of canine hip dysplasia
10:45	Cocoș Ana Maria Gabriela	Comparative study on canine bone marrow iron stores using different sampling sites
10:55	Crihan Tudor	Researches regarding the emergency management of cardiogenic pulmonary oedema in cats
11:05	Cristea Eva Demetria	Clinical, Metabolic and Ultrasonographic Correlations in Dogs with Cushing's Syndrome
11:15	Bitire Ana-Patricia	Diagnostic difficulties in canine cutaneous Mast Cell Tumors: A comparative evaluation of the Patnaik, Kiupel and Camus Grading Systems
11:25 - 11:45		Break between the sessions

DETAILED PROGRAMME

<p style="text-align: center;">SECTION II Veterinary Medicine – Clinical Sciences (Session 2) TIME: 11:45 – 13:45</p>		
<p style="text-align: center;">Miclăuș - Building 14 – Clinics, Ground Floor</p>		
<p>Moderators:</p> <ol style="list-style-type: none"> 1. Professor PhD Laurențiu Tudor 2. Associate Prof Poliana Tudor <p>Technical assistance: student Bitire Ana-Patricia</p>		
Time	Authors	Paper Title
11:45	Sincă Marinela	Study on the incidence and lesions attributed to chronic mitral disease in dogs
11:55	Soare Alexandra	Study on the Incidence, Diagnosis, and Treatment of Oncological Diseases of the Genital System in Canines
12:05	Dicu Diana-Gabriela	Heavy metal concentrations in common pheasants - a literature review
12:15	Dimian Gheorghe- Daniel	Evaluation of the antiparasitic effect of <i>Cucurbita</i> seeds on parasitoses in gallinaceous poultry
12:25	Dinu Ana- Ruxandra	Ultrasound study on the incidence of polycystic kidney disease in different cat breeds
12:35	Dobre Alexandra- Georgiana	<i>Dirofilaria immitis</i> infection in dogs: Correlations between Serological diagnosis and Pleuropulmonary Ultrasonography
12:45	Dobre Bianca-Diana	Diagnosis and management of Ethylene glycol poisoning
12:55	Domșa Luca-Cristian	Comparative study of the analgesic effect of meloxicam and robenacoxib in cats subjected to gonadectomy
13:05	Dorogan Andrei Rareș	Anesthesiology and sedation techniques for the wild animals of Kruger National Park, South Africa
13:15	Dospinescu Ștefania	Clinical and Ecocardiographic aspects of cardiac Hemangiosarcoma in dogs
13:25	Răduță Andreea Miruna	Clinical and anamnestic aspects, diagnostic methods and prevalence of parasites in canine shelters
13:35 - 13:45		Conclusions; Q&A

DETAILED PROGRAMME

<p style="text-align: center;">SECTION II Veterinary Medicine – Clinical Sciences (Session 1) TIME: 9:45 – 11:25</p>		
<p style="text-align: center;">Therapeutics - Room 79 - Building 14 – Clinics, First Floor</p>		
<p>Moderators:</p> <ol style="list-style-type: none"> 1. Professor PhD Mariana Ioniță 2. Associate Professor PhD Ruxandra Costea <p>Technical assistance: student Gheorghe-Tănase Sofia-Maria</p>		
Time	Authors	Paper Title
9:45	Dragomir Cristina Maria	Morphological study of lesions in the male genital tract of dogs
9:55	Dragomir Alexia- Ioana	Therapeutic implications in Canine Hypothyroidism
10:05	Duminică Adriana Delia	Research on the diagnosis and Post-Treatment dynamics of certain intestinal parasitic infections in donkeys raised in an extensive farming system
10:15	Dumitrescu Oana-Ștefania	Study regarding the relevance of ultrasound examination in hydronephrosis in dogs
10:25	Epureanu Livia-Ioana	Pyrethroid intoxication in cats - a case study
10:35	Feintuch Beatrice	Clinical and ultrasonographic assessment of pyometra in bitches
10:45	Florescu Diana	Comparative study of canine gastroduodenal lesions using endoscopic and histopathological criteria
10:55	Ganea Irina	Histopathological examination of inflammatory gastrointestinal disease in small-breed dogs
11:05	Gănescu Daria Teodora	Management of flail chest in dogs - cases series report
11:15	Gheorghe-Tănase Sofia-Maria	A study on the efficacy of the Madigan squeeze technique in the resolution of neonatal maladjustment syndrome
11:25- 11:45		Break between the sessions

DETAILED PROGRAMME

SECTION II Veterinary Medicine – Clinical Sciences (Session 2) TIME: 11:45 – 13:45		
Therapeutics - Room 79 - Building 14 – Clinics, First Floor		
Moderators: 1. Professor PhD Mariana Ionită 2. Associate Professor PhD Ruxandra Costea Technical assistance: student Gheorghe-Tănase Sofia-Maria		
Time	Authors	Paper Title
11:45	Gheorghescu Teodora	Evaluation of therapeutic response in relation to evolution in canine lymphoma
11:55	Ghita Dragos Ștefan	Incidence and Management of Hoof Disorders in Horses from the ‘Steaua Speranței’ Shelter: Clinical Study and Therapeutic Approach
12:05	Gökçe Airin Deniz	Comparative Study on the Surgical Therapeutic Protocol in Forelimb Fractures in Domestic Carnivores
12:15	Goran Andrei-George	Metaldehyde intoxication in dogs: a comprehensive clinical review
12:25	Grama Andreea-Maria	Studies on tendon and ligament injuries in sport horses – clinical diagnosis and modern therapeutic options
12:35	Grigoriță Ana-Maria	Clinical - anamnestic, paraclinical and therapeutic aspects in feline eosinophilic complex
12:45	Guță Horia Andrei	Study on the management of the cardiac patient in anesthesia
12:55	Huiculescu Eugen	Correlations between semiological findings and cardiological evaluation in the diagnosis of hypertrophic cardiomyopathy in cats
13:05	Huțanu Elena-Alexandra	Study regarding the occurrence of cardiomyopathy in feline breeds: British Shorthair, Scottish Fold, and Sphynx:
13:15	Ibrian Maria- Larisa	Study on the epidemiology of intestinal parasite infections in dogs
13:25	Revnice Petru-Răzvan	Management of Post-Weaning Diarrhea in Swine
13:35- 13:45		Conclusions; Q&A

DETAILED PROGRAMME

<p style="text-align: center;">SECTION II Veterinary Medicine – Clinical Sciences (Session 1) TIME: 9:45 – 11:25</p>		
<p style="text-align: center;">Room 111 - Building 14 – Clinics, First Floor</p>		
<p>Moderators:</p> <ol style="list-style-type: none"> 1. Professor PhD Gheorghe Goran 2. Lecturer PhD Raluca Turbatu <p>Technical assistance: student Stupu Smaranda</p>		
Time	Authors	Paper Title
9:45	Badera Laurine	Evolution of renal biochemical parameters before and after placement of a subcutaneous ureteral bypass (SUB) device in cats with obstructive ureterolithiasis
9:55	Barousse-Romeyer Anna	A study of artificial insemination techniques in horses: a comparison between chilled and frozen methods
10:05	Bluteau Anne-Kristoffy	3D implants in cranio-maxillo-facial reconstruction in cats
10:15	Waisse Étienne	Comparison of the efficacy of antifungal agents in cases of aspergillosis in psittacines
10:25	De Valmigere Anne-Sophie	Emergency management of severe feline polytrauma: focus on thoracic injuries
10:35	Desveaux Lise	Ivermectin toxicity in Australian Shepherd dogs with MDR1 mutation: toxicological mechanisms and clinical manifestations
10:45	Maéna Romain	Mercury Exposure and its Effects on Shark Health
10:55	Nicolle Blanche	Skin Flaps in Traumatic and/or Surgical Wounds
11:05	Minguet Ophélie	A systematic approach to the management of high-rise syndrome in cats: radiographic, ultrasound, and clinical evaluation
11:15	Pin-Bouffier Ouliian	Clinical and histopathological diagnosis of hepatopathies in cats
11:25- 11:45		Break between the sessions

DETAILED PROGRAMME

SECTION II Veterinary Medicine – Clinical Sciences

(Session 1)

TIME: 11:45 – 13:25

Room 111 - Building 14 – Clinics, First Floor

Moderators:

1. Associate Professor PhD Gheorghe Goran
2. Lecturer PhD Raluca Turbatu

Technical assistance: student Stupu Smaranda

Time	Authors	Paper Title
11:45	Lazăr Daria	Study regarding the incidence and causes of abortion in a sheep farm from the Buzău county
11:55	Stoica Ioana-Mihaela	Morphological evaluation of oocytes recovered from ovarian follicles of sows obtained post-slaughter
12:05	Șpalir Ana	Diagnostic Value of Cytology Compared with Histopathology in (Sub)Cutaneous Lesions and Lymph Nodes
12:15	Stupu Smaranda	Cantharidin Poisoning in Horses: Sources, Toxicodynamics, Clinical Manifestations, Diagnosis and Treatment
12:25	Tica Lara-Maria	Correlations Between Clinical and Imaging Examination in the Differential Diagnosis of Cough in Dogs:
12:35	Toboș Laura Teodora	Diagnosis and treatment of secondary Glaucoma in dogs
12:45	Toma Andreea Carina	Essential Oils used as “Natural” Antiparasitics in cats: Adverse effects, Toxicity mechanisms, Risk factors, and Prevention
12:55	Voicu Maria Alexandra	Urolithiasis in Male Cats-Semiological Aspects, Clinical Diagnosis, and Paraclinical Investigations
13:05	Zaharie Alexandru Andrei	Differential diagnosis of splenic diseases in dogs
13:15	Zamfir Alisa-Ioana	Correlations of paraclinic and anatomopathological changes in equine gastric perforating ulcer
13:25- 13:45		Conclusions; Q&A

DETAILED PROGRAMME
